

Wandering Around San Antonio

by Ucaoimhu

The city of San Antonio means different things to different people. This puzzle explores four such meanings.

To start with, a few clues have had 1–3 letters added (as a consecutive group) in a manner indicated by Meaning 1; these letters must be removed before solving. A few other clues work normally, but the resulting answers must be altered before entry, in one of two ways indicated by Meanings 2 and 3.

To provide additional help, if you take 1–3 letters from the end of each Meaning 1 clue (the same number of letters as you removed) in clue order, they will spell Meanings 2 and 3. Conversely, if you take the first letter from each Meaning 2 clue in clue order, they will spell Meaning 1; if you take one letter from somewhere within each Meaning 3 clue, in clue order, they will also spell Meaning 1. (These positions — end, beginning, and the position for Meaning 3 — are appropriate for Meanings 1, 2, and 3 in terms of the history of San Antonio.)

As for the clues that don't pertain to Meaning 1, 2, or 3 as above: Except for 11A, 37A, and 6D, these all have a cryptic part that yields an extra letter; 11A, 37A, and 6D have a normal cryptic part but no definition, and their answers are all very non-MW. The extra letters in clue order will describe, in terms of the whimsically labeled map formed by 11A, 37A, and 6D, what the city of San Antonio means to me.
