TEAM 1

(Do not flip over until Phase 1 begins.)

Example:

CATEGORY	LETTER
0. A US state capital	2nd = A

YOUR WORD		PTS	
<i>Sacramento</i>	scores	3	because the second letter of "Sacramento" is A.
<i>Boston</i>	scores	2	if no other team at the table writes "Boston," and

- (I) Each word a team gives fitting the CATEGORY scores:
 3 points if it meets the LETTER requirement.
 2 points if it doesn't match the LETTER and is *unique*.
 1 point if it doesn't match the LETTER and is *not unique*.
- (II) The *picking team* looks at the other teams' words and picks *any word* as WORD A, and *any 3-point word* as WORD B. (If not enough words have been given by the other teams, the table can brainstorm to fill the gaps.)
