

House-Cooling Party

by Ucaoimhu

In this puzzle,

(1) Half of the Across clues contain a word that must be cooled down; take the first letter after each such word to spell an appropriate term.

(2) The other half work normally, but their answers, by the time they enter the grid, are all somewhat the worse for wear; the term from part (1) will (audibly) tell how to reattach the pieces that have fallen off.

All Down clues and answers work normally.
