

# 16 Changes by Ucaoimhu

In this cryptic, the answers to all Across clues must be altered before entry (resulting entries include one abbreviated form and two proper names). In honor of four pairs of Best Picture nominees, (1) four become equine, (2) four require you to extract the right part and interpret it as two well-separated compass bearings, (3) four will have an oddly-named character as the headlining one, and (4) four become Frenchish. When the grid is complete, follow the instruction at the top and then apply changes 1–4, in order, to get a term that completes this tribute.

Down answers are entered normally, but each Down clue has one extra letter that must be removed before solving; these letters, in order, say where the unclued entry at the bottom, and the four remaining Across answers which have been altered thereby, come from.

## ACROSS

13. Lady was to start a sultanate
14. Has frontless dresses
15. Broadway musical's hit song
